Dear BCS Veterinary Hospitals and Clinics:

On behalf of the College Station Independent School District and the A&M Consolidated Agriculture department, I would like to inform you of the Certified Veterinary Assistant Level 1 certification A&M Consolidated High School is offering to students taking our Veterinary Medical Applications course. We are seeking several veterinary hospitals and clinics to host and consider allowing students to observe in your hospitals and clinics. This is a capstone experience for the students in the animal science pathway and one of the greatest hands-on learning experiences that these future vet assistants will receive in their educational quest. In an effort to meet the clinical hour requirements set forth by the TVMA (300 clinical hours under a certified DVM or LVT), our goal is to have our students start a clinical internship and finish their required hours by their senior year. If you have any questions regarding the program, please do not hesitate to email or call.

I have also attached to this letter, the forms that a student will bring with them, which includes a check list of items students need to observe. ***If there are any forms in which your office requires completed, please send them to the email listed above and I will have them completed ASAP by the student intern placed at your clinic.***

Sincerely,

Hannah Lewandowski
